

Graciela González

Blue Tango
presents
Graciela González
La Leona del Tango
May 12-14, Boston

Graciela González (Buenos Aires) is known internationally for her innovative teaching and special elegance in tango salon.

One of the most significant tango personas over the last 30 years, Graciela is a pioneer in working with natural movements of the body. From extensive years dancing with grand maestros combined with her dedicated study, she developed internationally lauded seminars on follower and leader technique. **Antitécnica** is her most recent signature work. In this intensive seminar for leaders & followers, discover a new way to dance involving functional postures and natural body movements. Graciela has trained many professional dancers who currently teach and perform extensively around the world.

Graciela will also teach a spirited **Milonga** workshop and pay tribute to **Legendary Maestros**. In addition to her long-time partner Pupi Castello, they include other grand masters of tango's "Golden Age". On Monday there is a special **Follower Adornos** workshop for participants of Antitécnica.

Join us at **Blue Milonga!**
